Umaru Sahr Biango

Junior Web Developer

hello@umarubiango.com | 058 852 5567

EXPERIENCE

XA Group, Dubai, UAE
- Data Labeler, April 2022 – present

Primary Responsibilities:

- Accurately label images according to specific guidelines to train machine learning models.
- Review and verify the accuracy of labels provided by other data labelers to ensure consistency and high quality.
- Work closely with data scientists, engineers, and the product owner to understand labeling requirements and provide feedback.
- Proficiently use data labeling and management software and tools like Labelme and Microsoft Azure.

Freelance Work
- Web Developer

Primary Responsibilities:

- Research, design and develop WordPress websites form the ground up.
- Implement best practices for website optimization, including minifying code, optimizing images, and improving page load times.
- Ensure websites are optimized for search engines by following SEO best practices, such as proper use of meta tags, structured data, and clean code.
